## **INDEPENDENT AUDITORS' REPORT**

Chairman

Marshall Islands Scholarship Grant and Loan Board:

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the Marshall Islands Scholarship Grant and Loan Board (MISGLB), a governmental fund of the Republic of the Marshall Islands, which comprise the balance sheets as of September 30, 2018 and 2017, and the related statements of revenues, expenditures, and changes in fund balance for the years then ended, and the related notes to the financial statements.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Deloitte.

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Marshall Islands Scholarship Grant and Loan Board as of September 30, 2018 and 2017, and the results of its operations for the years then ended in accordance with accounting principles generally accepted in the United States of America.

# Emphasis of a Matter - Reporting Entity

As discussed in Note 1 to the financial statements, the financial statements referred to above present only the Marshall Islands Scholarship Grant and Loan Board and are not intended to present fairly the financial position and results of operations of the Republic of the Marshall Islands in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The combining financial statement information on page 11 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of the Marshall Islands Scholarship Grant and Loan Board's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standard generally accepted in the United States of America. In our opinion, the combining financial statement information is fairly stated, in all material respects, in relation to the financial statements as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 12, 2019, on our consideration of the Marshall Islands Scholarship Grant and Loan Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Marshall Islands Scholarship Grant and Loan Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Marshall Islands Scholarship Grant and Loan Board's internal control over financial reporting and compliance.

Notes to Financial Statements September 30, 2018 and 2017

## (1) Organization

The Marshall Islands Scholarship Grant and Loan Board (MISGLB), a governmental fund of the Republic of the Marshall Islands (RepMar), was established pursuant to the Scholarship Assistance Act of 1997 (the Act), as amended. MISGLB was established to develop and administer a financial assistance program for those qualified applicants who cannot pursue educational and training opportunities because of financial inability. In accordance with the Act, RepMar established the Scholarship Fund Account, a governmental fund accounted for within RepMar's Treasury. This Fund accounts for funds appropriated by the Nitijela (the RepMar Legislature) for scholarship assistance, including funding under the Compact of Free Association, as Amended (the Compact).

The accompanying financial statements relate solely to those accounting records maintained by MISGLB, and do not incorporate any accounts related to RepMar's Scholarship Fund Account or any other departments or agencies of RepMar that may be accounted for by RepMar's Treasury. MISGLB is considered to be a blended component unit (a governmental fund) of RepMar and is governed by a nine-member Board appointed by the Cabinet of RepMar.

## (2) Summary of Significant Accounting Policies

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of MISGLB's accounting policies are described below.

# Measurement Focus and Basis of Accounting

MISGLB reports its financial position and the results of its operations in one special revenue fund. A fund is a separate accounting entity with a self-balancing set of accounts. They are concerned only with the measurement of financial position and are not involved with measurement of results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain MISGLB functions or activities.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds).

MISGLB's special revenue fund consists of the following:

- i. Compact Scholarship Fund This fund was established to account for monies received by MISGLB that were appropriated by RepMar under the Compact.
- ii. Byrd Grant Scholarship Fund This fund was established to account for monies received by MISGLB under the Robert C. Byrd Honors Scholarship Program sector grant.
- iii. Nitijela Fund This fund was established to account for monies received by MISGLB that were appropriated by the Nitijela as well as other grants, gifts and donations received for scholarship assistance.

Notes to Financial Statements September 30, 2018 and 2017

## (2) Summary of Significant Accounting Policies, Continued

# Basis of Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Significant revenues susceptible to accrual include federal grants and Nitijela appropriations. Miscellaneous revenues from gifts and donations are recognized when received in cash because they are generally not measurable until actually received. Expenditures are recorded when the related fund liability is incurred.

# **Budgetary Information**

An annual appropriated budget has not been formally adopted on a legal basis or a basis consistent with GAAP. Accordingly, a budget to actual presentation is not required or presented.

# Cash and Time Certificate of Deposit

The deposit and investment policies of MISGLB are governed by 3 MIRC 7, *Investments of Public Funds*, and 11 MIRC 1, *Financial Management*. Custodial credit risk is the risk that in the event of a bank failure, MISGLB's deposits may not be returned to it. Such deposits are not covered by depository insurance and are either uncollateralized or collateralized with securities held by the pledging financial institution or held by the pledging financial institution but not in the depositor-government's name. MISGLB does not have a deposit policy for custodial credit risk.

For the purpose of the balance sheets, cash is defined as cash in demand accounts. Deposits maintained in time certificates of deposit with an original maturity date greater than ninety days are separately classified. As of September 30, 2018 and 2017, the carrying amounts of MISGLB's total cash and time certificate of deposit were \$846,038 and \$995,314, respectively, and the corresponding bank balances were \$953,139 and \$1,078,825, respectively. Of the bank balances, \$361,044 and \$510,170, respectively, were maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance with the remaining amounts of \$592,095 and \$568,655, respectively, being maintained in a financial institution not subject to depository insurance. As of September 30, 2018 and 2017, bank deposits in the amount of \$302,724 and \$437,664, respectively, were FDIC insured. MISGLB does not require collateralization of its cash deposits; therefore, deposits levels in excess of FDIC insurance coverage are uncollateralized. Accordingly, these deposits are exposed to custodial credit risk.

Notes to Financial Statements September 30, 2018 and 2017

# (2) Summary of Significant Accounting Policies, Continued

# **Receivables**

MISGLB lends money to students, who are citizens of the Republic of the Marshall Islands, based on meeting certain criteria. These loans are interest free, uncollateralized and have no set repayment terms. These loans may be converted to grants at a later date if the recipients meet a further set of criteria. Loans receivable are stated net of an estimated allowance for uncollectible accounts.

The allowance for uncollectible accounts is established through direct scholarship assistance charged to expenditures. Loans receivable are charged against the allowance for uncollectible accounts when management has determined that the scholarship recipients have met the criteria for conversion to grants.

#### Fund Balance

Fund balance classifications are based on the extent to which MISGLB is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Restricted fund balance includes amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation. A formal minimum fund balance policy has not been adopted.

#### Taxes

The Government of RepMar imposes a gross receipts tax of 3% on revenues. MISGLB is specifically exempt from this tax.

#### Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### New Accounting Standards

During the year ended September 30, 2018, MISGLB implemented the following pronouncements:

• GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, and provides guidance on reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments.

Notes to Financial Statements September 30, 2018 and 2017

# (2) Summary of Significant Accounting Policies, Continued

# New Accounting Standards, Continued

- GASB Statement No. 81, Irrevocable Split-Interest Agreements, which improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.
- GASB Statement No. 85, *Omnibus 2017*, which address practice issues that have been identified during implementation and application of certain GASB Statements including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits).
- GASB Statement No. 86, Certain Debt Extinguishment Issues, which improves consistency in accounting and financial reporting for in-substance defeasance of debt.

The implementation of these statements did not have a material effect on the financial statements of MISGLB.

In November 2016, GASB issued Statement No. 83, Certain Asset Retirement Obligations, which addresses accounting and financial reporting for certain asset retirement obligations (AROs) associated with the retirement of a tangible capital asset. The provisions in Statement No. 83 are effective for fiscal years beginning after June 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying fiduciary activities of all state and local governments. The provisions in Statement No. 84 are effective for fiscal years beginning after December 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In June 2017, GASB issued Statement No. 87, *Leases*, which establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions in Statement No. 87 are effective for fiscal years beginning after December 15, 2019. Management has yet to determine whether the implementation of this statement will have a material effect on the financial statements.

In April 2018, GASB issued Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements, which improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. The provisions in Statement No. 88 are effective for fiscal years beginning after June 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

Notes to Financial Statements September 30, 2018 and 2017

# (2) Summary of Significant Accounting Policies, Continued

# New Accounting Standards, Continued

In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, which requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. The provisions in Statement No. 89 are effective for fiscal years beginning after December 15, 2019. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In August 2018, GASB issued Statement No. 90, *Majority Equity Interests – an Amendment of GASB Statements No. 14 and No. 61*, which improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and the relevance of financial statement information for certain component units. The provisions in Statement No. 90 are effective for fiscal years beginning after December 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

## (3) Risk Management

MISGLB is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. MISGLB has elected to purchase commercial insurance from independent third parties for the risks of loss to which it is exposed with respect to the use of motor vehicles. For other risks of loss to which it is exposed, MISGLB has elected not to purchase commercial insurance. Instead, MISGLB believes it is more economical to manage its risks internally. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. No material losses have resulted from MISGLB's risk management activities for the past three years.

# (4) Receivables

Receivables as of September 30, 2018 and 2017, including the applicable allowance for uncollectible accounts, are as follows:

	<u>2018</u>	<u>2017</u>
Loans receivable Less allowance for uncollectible accounts	\$ 19,130,489 ( <u>19,130,489</u> )	\$ 17,981,394 ( <u>17,981,394</u> )
	\$	\$ <u> </u>

During the years ended September 30, 2018 and 2017, MISGLB converted \$307,153 and \$1,064,530, respectively, in loans receivable to grants as the recipients met the criteria for conversion. The effect of the conversion of these loans to grants has been reflected in loans receivable balances as of September 30, 2018 and 2017.

Notes to Financial Statements September 30, 2018 and 2017

# (5) Related Party Transactions

MISGLB is a governmental fund of RepMar and is therefore affiliated with all RepMar-owned and affiliated entities, including all governmental funds of RepMar and the Marshall Islands Development Bank (MIDB). During the years ended September 30, 2018 and 2017, MISGLB recognized certain on-behalf payments as contributions from RepMar, totaling \$92,965 and \$82,944, respectively, representing certain payroll and related expenditures that RepMar paid directly on behalf of MISGLB.

During the years ended September 30, 2018 and 2017, the operations of MISGLB were funded by appropriations from RepMar, totaling \$1,431,542 and \$1,450,190, respectively.

MISGLB entered into an office lease with MIDB for a term of five years commencing February 25, 2010. In 2017, MISGLB renewed the lease for an additional five years with annual rent of \$15,840, payable in quarterly installments of \$3,960.

## (6) Contingency

MISGLB receives a substantial amount of its revenue from annual RepMar appropriations. If a significant reduction in the level of budgetary support from RepMar were to occur, MISGLB's scholarship programs and activities may be impacted. For the year ending September 30, 2019, RepMar appropriated funding to MISGLB in the amount of \$1,563,047 for the purpose of funding scholarship activities.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Chairman

Marshall Islands Scholarship Grant and Loan Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Marshall Islands Scholarship Grant and Loan Board (MISGLB), which comprise the balance sheet as of September 30, 2018, and the related statements of revenues, expenditures, and changes in fund balance for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated March 12, 2019.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered MISGLB's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of MISGLB's internal control. Accordingly, we do not express an opinion on the effectiveness of MISGLB's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as item 2018-002, that we consider to be significant deficiencies.

# Deloitte.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether MISGLB's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Findings and Questioned Costs as item 2018-001.

# MISGLB's Responses to Findings

lotte Hawlell

MISGLB's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. MISGLB's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Chairman

Marshall Islands Scholarship Grant and Loan Board:

## Report on Compliance for Each Major Federal Program

We have audited the Marshall Islands Scholarship Grant and Loan Board's (MISGLB) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on MISGLB's major federal program for the year ended September 30, 2018. MISGLB's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

## Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

# Auditor's Responsibility

Our responsibility is to express an opinion on compliance for MISGLB's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about MISGLB's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of MISGLB's compliance.

#### Opinion on the Major Federal Program

In our opinion, MISGLB complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended September 30, 2018.

# Deloitte.

## **Report on Internal Control Over Compliance**

Management of MISGLB is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered MISGLB's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of MISGLB's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of MISGLB as of and for the year ended September 30, 2018, and have issued our report thereon dated March 12, 2019, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Schedule of Expenditures of Federal Awards Year Ended September 30, 2018

# (1) Organization and Compact of Free Association

The Marshall Islands Scholarship Grant and Loan Board (MISGLB) is a subrecipient of funds received through Sections 211(a) and 211(b) of the Compact of Free Association, As Amended (the Compact), from the Republic of the Marshall Islands (RepMar). These funds are provided to support the post-secondary education of citizens of the Marshall Islands attending accredited post-secondary institutions.

# (2) Summary of Significant Accounting Policies

## Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of MISGLB and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

## **Indirect Cost Rate**

MISGLB has not elected to use the 10% de minimis cost rate.

Schedule of Findings and Questioned Costs Year Ended September 30, 2018

# Local Noncompliance

## Finding No. 2018-001

<u>Criteria</u>: Section 6(e) of the Scholarship Assistance of 1979 (the Act), as amended, requires MISGLB to ensure timely repayment of scholarship assistance loans. MISGLB policies and procedures require the repayment of student loans within one year of completion or cessation of studies. Furthermore, Section 7(h) of the Act authorizes MISGLB to convert scholarship assistance loans to grants.

<u>Condition</u>: During the year ended September 30, 2018, MISGLB converted \$307,153 of loans to grants as recipients met conversion criteria. Additionally, as of September 30, 2018, MISGLB recorded outstanding loans receivable of \$19,130,489. Due to the lack of collection of these loans, a corresponding allowance for uncollectable loans has been recorded. Furthermore, MISGLB does not maintain a detailed subsidiary ledger that encompasses all outstanding loans.

<u>Cause</u>: The cause of the above condition is lack of enforcement of MISGLB policies and procedures requiring the repayment of scholarship assistance loans and the lack of a reconciled subsidiary loan ledger.

<u>Effect</u>: The effect of the above condition is the lack of loan repayments and a possibility that converted loans may not be complete.

<u>Recommendation</u>: We recommend that MISGLB enforce established policies and procedures requiring the repayment of scholarship assistance loans. Furthermore, we recommend that MISGLB reconstruct the subsidiary loan ledger to reconcile and agree with the general ledger.

<u>Prior Year Status</u>: The lack of loan repayments and the possibility that converted loans may not be complete was reported as a finding in the Single Audits of MISGLB for fiscal years 1997 through 2017.

#### Auditee Response and Corrective Action Plan:

See the Corrective Action Plan on page 22.

Schedule of Findings and Questioned Costs, Continued Year Ended September 30, 2018

## External Financial Reporting

## Finding No. 2018-002

<u>Criteria</u>: Board minutes are the primary means by which agencies document the administration of MISGLB's operations.

<u>Condition</u>: Not all Board minutes of meetings held during fiscal year 2018 were available and several scholarship awards were not supported by underlying minutes.

<u>Cause</u>: The cause of the above condition is the lack of adherence to established policies and procedures relating to documentation of Board of Director minutes.

<u>Effect</u>: The effect of the above condition is the possibility that directives of the Board are not properly disclosed or recorded in the financial statements and several scholarship awards were not supported by underlying minutes.

<u>Recommendation</u>: We recommend that the Board of Directors require that all minutes of meetings be formally documented by the Secretary and be approved by the Board.

<u>Prior Year Status</u>: The lack of adherence to established policies and procedures relating to documentation of Board of Directors minutes was reported as a finding in the Single Audit of MISGLB for fiscal years 2014 through 2017.

## Auditee Response and Corrective Action Plan:

See the Corrective Action Plan on page 22.

Unresolved Prior Year Findings and Questioned Costs Year Ended September 30, 2018

The status of unresolved prior year findings is discussed within the Schedule of Findings and Questioned Costs section of this report.

Corrective Action Plan

Deloitte & Touche Certified Public Accountants P.O. Box 1288 Majuro, Marshall Islands 96960

Dear Gentlemen:

Following is the Marshall Islands Scholarship, Grant and Loan Board response to Fiscal Year 2018 findings:

# Finding No. 2018-001:

Marshall Islands Scholarship Grant & Loan Board agreed with your recommendation, therefore MISGLB had updated the Account Receivables to work with all the students that are to be converted. A proposal will be made to the Board to write off 10+years accounts, along with the prior year balance of \$2,880,609.47.

# Finding No. 2018-002:

MISGLB will accept your recommendation and ensure that all Board minutes are executed on timely manner. Minutes for the current fiscal year 2019 are updated and will be available to be reviewed in the audit.

Sincerely,

randa Alik Maddison

Chairperson

Marshall Islands Scholarship, Grant and Loan Board
